# New York Stock Market

New York, June 6.—Although hot free from periods of unsettlement, the stock market to-day showed a distinct improvement, culminating in an emphatic exhibition of strength, which lifted many shares well above the previous day's close. Opening prices were generally higher, but the early gains were eliminated gradually, as the market was undermined by heavy the market was undermined by heavy selling of Atchison, the Petroleum shares. Can and some other shares. The movement was accelerated by a sharp hear raid, in which a number of new low records for the long de-

of new low records for the long de-cline was reached.

The market quickly recovered its poise, rose steadily to the end. A factor in bringing about the smart upfactor in bringing about the smart up-turn late in the day was the appear-ance of Washington advices stating there was no ground for recent rumors circulated in Wall Street concerning the attitude of the administration to-ward certain large corporations.

The chief demand for stocks came from shorts. The market was helped by cessation of pressure from abroad. Cable dispatches showed a more cheerful feeling in London. A gain in cash of \$4,000,000 to \$5,000,000 for the week was indicated by known movements

of currency.
Time money was strong, and fereign Time money was strong, and icreign exchange rates made another advance. Considerable weakness appeared in numerous bonds, with some recovery later in sympathy with the rise in United States 2s, registered, declined

Total sales were 590,400 shares.

Government bonds heavy; railroad bonds irregular.

Lougs failed to hold the market and the gossip on the floor charged them with trying to take profits at every opportunity. On the opening the tone was steady and prices 428 points un. Cables were better than due, and much bullish gossip was affeat concerning the July option. Until late in the day July showed more strength than any other month on the boards, but August closed 12 points, while July closed 5 up. Other active months displayed a net gain of only 1 point. At one fine October showed a net loss of 1 point, but the other months did not drop off as far. The weather map was cloudy with scattered showers in the cotton region. The forecast predicted showery weather over the belt. Crop reports said that young cotton was growing fast. to 5 for the common and 35 for the preferred, prices that suggest acute financial trouble. The International Pump securities made new low records, and Pittsburgh Coal preferred dropped more than 2 points on selling that was rumored to represent closing out

The Can issues steadled somewhat in prices and Amalagamated Copper gained a point on the covering of "shorts."

Goldfield Consolidated sold at 1 5-8 on the passing of the dividend. The public has been sadly mislead regarding this company, and the history of the exploitation of these shares is a discredit to the street

There was a sharp rise of more than 4 points in Canadian Pacific on efforts of the traders to cover. For the mo-

of the traders to cover. For the moment the bears are at a disadvantage, as it is oversold.

Southern Pacific broke to low records when it sold at 91 1-8, but the shares recovered sharply toward the end, and the stock closed with a gain. The selling of the short-termed notes should place the company in sufficient should place the company in sufficient funds to meet immediate demands. Atchison common sold at 94 1-8, a new low figure. The company is apparently earning twice the dividend requirements, and there is nothing in the way of news to account for the

Western Union dropped to 61. This stock has long been living on its past reputation, and is selling beyond its intrinsic value. Pacific Teiegraph and Telephone dropped in sympathy.

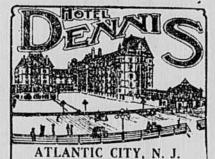

The successful sale by New York
State of \$27,000,000 short-term notes on a basis of 4.87 per cent shows notwithstanding the over subscription the firmness of the money market, and will probably prohibit other fresh is-sues of State or other municipal bends

for the present.

The showing to be made in the bank The slowing to be made in the bank statement to-morrow is confused somewhat by the financing of the foreign sales of our securities in this market, and the preparation for payment of notes sold by the State. Apparently the banks have gained largely in the movement in money from the West

The market may be expected to de-velop a firm tone to-morrow in anticipation of a Supreme Court decision on the Minnesota rate case on Monday, and the government crop report showing condition of wheat as of June 1. A further rally in prices is looked for, and traders seem to be strongly in
